

Board of Director

Scott Fiore

Tri-Starr Staffing Vice President, Partner

As Vice President and Partner of Tri-Starr staffing, I manage operations for TriStarr, making sure we consistently deliver great results for our clients and candidates. The best part about my job is that I get to work with an incredibly talented group of knowledgeable staffing professionals.

In addition to operations, I also oversee all our internal IT-where everyone loves me as long as nothing goes wrong.

I am a Certified Behavioral Assessment Analyst, which means that I am an expert in skills testing and personality and behavioral assessments for screening, selection, performance management, and team building. I've consulted with clients throughout the United States, helping them develop more effective hiring and talent management systems.

And if you need a speaker for an upcoming event, I am a regular presenter on the topic of personality and behavioral assessments.

My career started in sales within the financial services industry. In the early 90's, I moved on to Berk-Tek, a leading global manufacturer of data communication wire and cable. That was a great experience for me as I quickly rose through the ranks holding positions in product management, regional sales management, and national sales and market management.

In 1995, I joined TriStarr, and I discovered my passion for the staffing industry.

I am committed to serving my community in the following capacity:

- Lancaster Symphony Orchestra, Board of Directors, Chair 2001-2003
- Long's Park Amphitheater Foundation, Board of Directors, Chair 1998-2000
- Manheim Township School District, Superintendent's Lay Advisory Committee
- Manheim Township School District, Strategic Planning Committee
- Manheim Township Educational Foundation Board of Directors
